Artist profile:

Arrived from we don't know where nor how, without really knowing why, "Electrynose" aka 'Vince le Barde' living in Switzerland is exploring and trying to share a wide ranging sound universe.

He grew up in a family deeply involved in classical music for the last 3 generations, maybe more. So, of course music was an impossible thing to circumvent for him. He simply loves each form of sound since there is some richness in it. Ily have a static preference for a style. It depends on the mood.

Electrynose is working on different kinds of music like ambient, trip hop, melodic electronic music, sofa surfing, experimental inspired by Aphex Twin, Venetian Snare, or Matmos and Mouse on Mars.

Label profile:

Ajana Records is a sublabel of Trishula Records, A Dutch/German independent music label. Ajana is the name for the 6th body chakra, the third eye.

The musical spectrum ranges from psychedelic chillout and ambient to experimental downbeat music. Our goal is to release quality music from talented producers around the globe. Producers that have an unigue style and haven't had had any or many other releases before. Ajana Records is a platform for new talent to get born.

We are always looking for new talents and new ways of music production.

Recent releases are the chill-out compilation 'A Magical Journey' and the debut album 'Frech' from German producer Frechbax and the beautifull chill-out release 'Synthesis of Reality' by Capsula. Psyfactor with 'Endless Universe' and the second compilation 'A Magical Journey 2'.
