### Press & marketing:

Ambient Intelligent Application (A.I.A.) is an upcoming ambient-electronic group exploring new atmospheric paths. With many influences from various kinds of music and other groups (chill out, dub, ambient, downtempo, IDM, electronic, triphop, trance, techno, ebm, industrial, goth, psychedelic rock...), travelling around the world and enjoying many open-air festivals A.I.A. started producing music. The "Physical Moments" album is half live composed and recorded. Inserting in a world of digital/analog, virtual and hardware situations, this album describes these moments...

### **Artist profile:**

The A.I.A group is the project of two brothers (writing, producing, djing,...) which started from collecting music. Being in festivals around the world, they found themselves writing & producing music. Understanding the music theory through systems & signals, music informatics, waves & fields helped them to see musical theory as a part and as a whole of sound. Also their studies guided them to know functions of the main algorithms which are used in nowadays music programs & synthesizers, important for creating music. From this link between theory and practice A.i.A. (ambient intelligent application) was born. Sounds like : ..... ambient .....down -tempo .....electronica .....atmospheric

### **Label profile:**

Ajana Records is a label for downbeat music, a Dutch independent music label. Ajana is the name for the 6th body chakra, the „third eye“.

Our music will satisfy all of those restless listeners that are looking for something new and innovative with a touch of psychedelic taste in the background aimed for home listening and also for those late night travellers through sound and space.

The musical spectrum ranges from psychedelic chillout and ambient to experimental downbeat music.
