Yosi Shamay aka Capsula is a young producer from Israel releasing his debut cd on Ajana Records. He released tracks earlier this year on Peak Records and Ajana Records.

"Synthesis of Reality" is a story containing 11 tracks.

This album is trying to touch those worlds that exists in the backstage of our daily life and the best way to experience it is in a dark room at home. It is a chill out album with a lot of psy trance influences so it can be also played in trance related events.

It is like a dream, through dreaming we can perceive another world. And in this world Capsula takes you on a ride with his distinctive style, so close your eyes and don't wake up.
